Wander into the studio spaces, converted into social areas for your event, with additional visual displays. Continue the music from the common areas, or change it up if you'd like.

Enter the Café with lounge seating, a large communal table, and a bartending station. Your choice of music surrounds the guests and a large display screen features your selected imagery.

Mingle among high tables and stools or gather among lounge furniture settings. Enjoy the open spaces and outside views—a winter wonderland if it should happen to snow.
